

MONOCLONAL ANTIBODY TREATMENT TO PREVENT SEVERE COVID-19

GUIDE FOR HEALTH CARE PROVIDERS

- 

1
Is my patient eligible?

MONOCLONAL antibody treatments are for outpatients with mild to moderate COVID-19 symptoms and who meet the eligibility criteria, including:

 - Not hospitalized or on oxygen due to COVID-19
 - High risk of developing severe disease and hospitalization
 - Able to receive treatment within 10 days of developing symptoms

Patients who have been vaccinated may receive monoclonal antibody treatment.
- 

2
Is my patient interested?

 - Counsel patient on monoclonal antibody treatment.
 - Patient must be provided with the 3-page EMA Fact Sheet:
 - EMA Fact Sheet for Casirivimab and Imdevimab (Eggevion)
 - EMA Fact Sheet for Bamlanivimab and Etesevimab (BQ.1.22)
 - EMA Fact Sheet for Sotrovimab (SGSK)
 - Find updated information on benefits and risks of treatment.
- 

3
Where can my patient receive an infusion?

Options to find an infusion center with your patient:

 - Choose an infusion center on the [COVID-19 website](#) and complete the intake form, or
 - Check [Colorado Infusion Center Map](#).
- 

4
How can I arrange treatment?

The referral and ordering of monoclonal antibody treatment varies, depending on your clinic and/or health-care system processes.

 - If using the online [COVID-19 form](#) to send a referral to the selected infusion center, you will give the patient the infusion center phone number to call and schedule a same- or next-day appointment.
 - If using an infusion center associated with your organization, you may generate the referral and order within your EHR.
 - Advise patients with transportation, if needed. Safest travel is having the person with COVID-19 sit as far from the driver as possible, mask on, windows open. Avoid public transportation if possible.
- 

5
Is there cost for infusion?

 - **There is no cost for the medication;** the federal government pays for the medication.
 - The infusion facility fee is covered by **Medicaid, Medicare, and commercial insurance.** Patients may be billed for prep and/or treatment. Self-pay patients may be charged a facility fee for the infusion.
 - **If patient is self-pay, ask if the infusion center will charge the patient for treatment.** Patients without insurance who visit a federally-qualified health center for treatment, like Denver Health Post Urgent Care, would likely receive no bill.

For more information or to find an infusion center near you:
Call 1-877-332-6585 (English) or 1-877-366-0310 (Spanish),
or visit combatcovid.hhs.gov.
