

## MONOCLONAL ANTIBODY TREATMENT TO PREVENT SEVERE COVID-19

### GUIDE FOR HEALTH CARE PROVIDERS

- 1**  **Is my patient eligible?**

Monoclonal antibody treatments are for outpatients with mild to moderate COVID-19 symptoms and who meet the eligibility criteria, including:

  - Not hospitalized or on oxygen due to COVID-19
  - High risk of developing severe disease and hospitalization
  - Able to receive treatment within 10 days of developing symptoms

Patients who have been vaccinated may receive monoclonal antibody treatment.
- 2**  **Is my patient interested?**

  - Counsel patient on monoclonal antibody treatment.
  - Patient must be provided with the 3-page EMA Fact Sheet:
    - EMA Fact Sheet for Casirivimab and Imdevimab (Eggevion)
    - EMA Fact Sheet for Bamlanivimab and Etesevimab (LY3045)
    - EMA Fact Sheet for Sotrovimab (SGSK)
  - Find updated information on benefits and risks of treatment.
- 3**  **Where can my patient receive an infusion?**

**Options to find an infusion center with your patient:**

  - Choose an infusion center on the [COVID-19 website](#) and complete the intake form, or
  - Check [Colorado Infusion Center Map](#).
- 4**  **How can I arrange treatment?**

The referral and ordering of monoclonal antibody treatment varies, depending on your clinic and/or health-care system processes.

  - If using the online [COVID-19 form](#) to send a referral to the selected infusion center, you will give the patient the infusion center phone number to call and schedule a same- or next-day appointment.
  - If using an infusion center associated with your organization, you may generate the referral and order within your EHR.
  - Advise patients with transportation, if needed. Safest travel is having the person with COVID-19 sit as far from the driver as possible, mask on, windows open. Avoid public transportation if possible.
- 5**  **Is there cost for infusion?**

  - **There is no cost for the medication;** the federal government pays for the medication.
  - The infusion facility fee is covered by **Medicaid, Medicare, and commercial insurance.** (Patients may be billed co-pay and co-insurance. Self-pay patients may be charged a facility fee for the infusion.)
  - **If patient is self-pay, only if the infusion center will charge the patient for infusion.** (Patients without insurance who visit a federally-qualified health center for treatment, like Denver Health Post Urgent Care, would likely receive no bill.)

For more information or to find an infusion center near you:  
Call 1-877-332-6585 (English) or 1-877-366-0310 (Spanish),  
or visit [combatcovid.hhs.gov](https://combatcovid.hhs.gov).
