Outpatient COVID-19 treatments for long-term care facilities

We have a new treatment to help long-term care facilities work through the process of providing treatment for residents who are positive for COVID-19. For more information, visit [this link](#).

Learn more about COVID-19 treatment in long-term care settings: [COVID-19 treatment in long-term care settings](#)

The COVID-19 treatment options are available for residents who are positive for COVID-19. For more information, visit [this link](#).

COVID-19 medical spi team - public health provider detailing

As part of the COVID-19 Medical Spi Team, providers at COVID can help providers who are administering or are considering administering COVID-19 treatments. Examples of their work include, but are not limited to:

- Providing information about COVID-19 treatment options and how to access them
- Providing information about COVID-19 treatment options and how to access them
- Providing information about COVID-19 treatment options and how to access them
- Providing information about COVID-19 treatment options and how to access them
