## Heart2Hearts®: Advance Care Planning

"How do I start a conversation about my end-of-life healthcare wishes?" "This is really uncomfortable." "What should I say?" These questions were asked over and over again by patients. As a result, the **Heart2Hearts®** deck of cards were invented in order to provide 52 conversation starters. You may find that you want to use them to play poker or as a regular deck of cards. Be prepared to have the most meaningful Heart2Hearts® conversation of your life. A few sample cards:
