Littleton, CO, March 16: Behavioral Health Solutions continues to grow and expand their services into the state of Colorado. BHS has acquired Colorado In-Home Counseling, a group practice that specializes in traveling counseling services for seniors and disabled adults in the state of CO.

Behavioral Health Solutions (BHS) is a comprehensive behavioral health provider group focused expanding the care continuum with an outpatient service line delivering psychiatric services, medication management, and therapy services.

BHS is Expanding Into Colorado – Behavioral Health Solutions

Colorado In-Home counseling has been integrated into BHS and is now operating under our company. BHS will continue to provide a full complement of outpatient therapy, psychology and psychiatry services in the state of Colorado through telehealth services.

BHS can meet the Behavioral Health needs of the Colorado community with immediate provider availability, offering services via telehealth so that clients can safely and conveniently access care from any location.

Behavioral Health Solutions (BHS) is one of the largest remote access mental health provider groups in Nevada providing psychiatry, medication management, neuropsychology and therapy services. BHS serves individuals aged 5 and up across a variety of settings including outpatient, healthcare facilities/clinics, residential communities, and school systems through a comprehensive service line.
