

ACP Substance Use Disorder Training: [Substance Use Disorder \(SUD\) Education: New DEA Requirement | ACP Online](#)

Second, practitioners can satisfy this training by engaging in a total of eight hours of training on treatment and management of patients with opioid or other substance use disorders from the groups listed below. A few key points related to this training:

1. The training does not have to occur in one session. It can be cumulative across multiple sessions that equal eight hours of training.
2. Past trainings on the treatment and management of patients with opioid or other substance use disorders can count towards a practitioner meeting this requirement. In other words, if you received a relevant training from one of the groups listed below—prior to the enactment of this new training obligation on December 29, 2022—that training counts towards the eight-hour requirement.
3. Past DATA-Waived trainings count towards a DEA registrant's 8-hour training requirement.
4. Trainings can occur in a variety of formats, including classroom settings, seminars at professional society meetings, or virtual offerings.
