

Medical Aid in Dying (MAID)

Do you have a policy on this Colorado Law? The law is below. Because of Medico-Legal concerns, I would recommend you have a policy on this issue. It is a facility decision but in my opinion you have the right to not take part in assisted suicide if you want to take that stance. It is very possible that this issue will arise for you at some point in the next few years. Having a policy now will help.
